Middle Eastern crude oil is a vital commodity that plays a significant role in the global energy market. The pricing of this oil has a direct impact on the economies of oil-producing countries and on the cost of energy for consumers around the world.

In this book, Dr. Ahmed Al-Saidi provides a comprehensive analysis of the factors that influence the pricing of Middle Eastern crude oil. He draws on his extensive experience in the oil industry to identify the key market forces that affect pricing, including geopolitical factors, global economic conditions, and supply and demand dynamics.

Dr. Al-Saidi also presents an innovative framework for optimizing pricing strategies. This framework takes into account the various factors that

influence pricing and allows oil producers to make informed decisions about their pricing policies.

This book is an essential resource for anyone who is interested in the pricing of Middle Eastern crude oil. It is a valuable tool for oil producers, policymakers, and anyone who wants to understand the global energy market.
