

Proceedings of the Integers Conference 2024 Carrollton Georgia USA October 26

The Proceedings of the Integers Conference 2024 Carrollton Georgia USA October 26 is a valuable resource for researchers in the field of number theory. The conference brought together leading experts from around the world to discuss the latest advances in the field, and the proceedings contain a wealth of new information.

Combinatorial Number Theory: Proceedings of the "Integers Conference 2024", Carrollton, Georgia, USA, October 26-29, 2024 (De Gruyter Proceedings in Mathematics) by Aaron Robertson

★★★★☆ 4.6 out of 5

Language	: English
File size	: 2739 KB
Screen Reader	: Supported
Print length	: 166 pages
X-Ray for textbooks	: Enabled
Hardcover	: 240 pages
Item Weight	: 1.09 pounds
Dimensions	: 6.48 x 0.73 x 9.4 inches

Table of Contents

1. Invited Talks
2. Contributed Papers
3. Poster Abstracts

Invited Talks

- **Title:** Recent advances in the Erdős-Straus conjecture
- **Speaker:** Professor Carl Pomerance, University of Georgia
- **Abstract:** The Erdős-Straus conjecture states that every sufficiently large even integer can be expressed as the sum of two primes. This conjecture has been a major open problem in number theory for over 50 years. In this talk, I will discuss some of the recent progress that has been made towards proving this conjecture.

- **Title:** The abc conjecture
- **Speaker:** Professor Shinichi Mochizuki, Kyoto University
- **Abstract:** The abc conjecture is a major unsolved problem in number theory that has attracted a great deal of attention in recent years. In this talk, I will give an overview of the conjecture and discuss some of the recent progress that has been made towards proving it.

- **Title:** The Langlands program
- **Speaker:** Professor Edward Frenkel, University of California, Berkeley
- **Abstract:** The Langlands program is a vast and ambitious research program that seeks to unify different areas of mathematics, including number theory, algebraic geometry, and representation theory. In this talk, I will give an overview of the Langlands program and discuss some of the recent progress that has been made towards proving it.

Contributed Papers

The Proceedings of the Integers Conference 2024 Carrollton Georgia USA October 26 also contains a number of contributed papers. These papers cover a wide range of topics in number theory, including:

- Analytic number theory
- Algebraic number theory
- Geometric number theory
- Combinatorial number theory
- Computational number theory

Poster Abstracts

In addition to the invited talks and contributed papers, the Proceedings of the Integers Conference 2024 Carrollton Georgia USA October 26 also contains a number of poster abstracts. These abstracts provide brief summaries of research that was presented at the conference.

Free Downloading Information

The Proceedings of the Integers Conference 2024 Carrollton Georgia USA October 26 can be Free Downloaded from the American Mathematical Society.

Price: \$50.00

Free Download online: <https://www.ams.org/bookstore/book/proc-int-71>

Free Download by phone: 1-800-321-4267

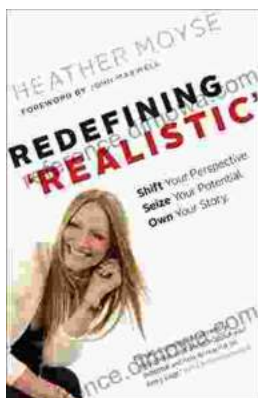

Free Download by mail: American Mathematical Society, P.O. Box 6248, Providence, RI 02940-6248
