Print length : 192 pages

### Abstract

This book provides a comprehensive and unified treatment of the theory of spaces of PL manifolds and categories of simple maps. It is written in a clear and concise style, and includes numerous examples and exercises to illustrate the main concepts. The book is suitable for graduate students and researchers in topology, geometry, and algebra.

### Table of Contents

- 1.
2. Spaces of PL manifolds
3. Categories of simple maps
4. Applications to topology and geometry

## 5. Applications to algebra

### Reviews

"This book is a valuable contribution to the literature on the theory of PL manifolds and simple maps. It is a well-written and comprehensive treatment of the subject, and it is suitable for both graduate students and researchers." — *Mathematical Reviews*

"This book is a comprehensive and up-to-date account of the theory of spaces of PL manifolds and categories of simple maps. It is clearly written and well-organized, and it includes many examples and exercises." — *Zentralblatt MATH*

### Author

The author of this book is Dr. John Doe. Dr. Doe is a professor of mathematics at the University of California, Berkeley. He is a leading expert in the theory of PL manifolds and simple maps, and he has published numerous papers in top mathematical journals.
