The Graduate Record Examination (GRE) is a standardized test that is required for admission to many graduate schools in the United States. The GRE consists of three sections: Verbal Reasoning, Quantitative Reasoning, and Analytical Writing. The Verbal Reasoning section tests your ability to understand and analyze written text. One of the most important aspects of the Verbal Reasoning section is vocabulary.

The GRE Word Lists are a collection of words that are frequently tested on the GRE. These words are often difficult to learn and remember, but they are essential for success on the GRE. In addition to learning the definitions of these words, it is also helpful to understand the personalities of the people who are associated with them.

By understanding the personalities of the people who are associated with GRE words, you can better understand the meaning of the words and how

they are used. This will help you improve your vocabulary and your score on the GRE.

The Personalities of GRE Words

The GRE Word Lists contain a wide variety of words, each with its own unique personality. Some words are positive, some are negative, and some are neutral. Some words are active, while others are passive. Some words are extroverted, while others are introverted.

The following are some examples of the different personalities of GRE words:

- **Positive words:** These words are associated with positive emotions, such as happiness, love, and success. Examples of positive words include "joyful," "loving," and "successful."
- **Negative words:** These words are associated with negative emotions, such as sadness, anger, and fear. Examples of negative words include "sad," "angry," and "afraid."
- **Neutral words:** These words are not associated with any particular emotion. Examples of neutral words include "table," "chair," and "book."
- **Active words:** These words describe actions or events. Examples of active words include "run," "jump," and "eat."
- **Passive words:** These words describe states of being or existence. Examples of passive words include "be," "exist," and "stand."
- **Extroverted words:** These words are associated with outgoing and social behavior. Examples of extroverted words include "party,"

"friend," and "conversation."

- **Introverted words:** These words are associated with quiet and reserved behavior. Examples of introverted words include "study," "read," and "write."

How to Use the Personalities of GRE Words to Improve Your Vocabulary

The personalities of GRE words can be a valuable tool for improving your vocabulary. By understanding the personalities of words, you can better understand their meaning and how they are used. This will help you learn and remember new words more easily.

Here are some tips for using the personalities of GRE words to improve your vocabulary:

- **Associate words with images:** When you learn a new word, try to associate it with an image that represents its personality. For example, you might associate the word "joyful" with an image of a smiling face or the word "sad" with an image of a crying face.
- **Create stories:** Try to create stories that involve the words you are learning. This will help you understand how the words are used in context and how they relate to each other.
- **Use words in conversation:** The best way to learn new words is to use them in conversation. Try to incorporate the words you are learning into your everyday speech.

The GRE Word Lists contain a wealth of vocabulary that can help you improve your score on the GRE. By understanding the personalities of the

people who are associated with these words, you can better understand their meaning and how they are used. This will help you learn and remember new words more easily and improve your overall vocabulary.

So, next time you are studying for the GRE, take some time to learn about the personalities of the people who are associated with the words you are learning. It will make your studying more enjoyable and help you improve your score.
